CHICAGO, Oct. 4.—Highest prices yet this season were scored in the wheat market today as a result of increasing drought damage in Argentina. The close was firm, 2½¢ to 2½¢ net higher with December at \$1.57½. Corn showed a net advance of ½¢ to ½¢, and oats of ½¢ to ½¢. Provisions finished at a range varying from 35¢ decline to a rise of 2½¢.

New York

NEW YORK, Oct. 4.—In keeping with the record of the last four weeks, today's market operations again attained a total well beyond the familiar 3,000,000 mark, albeit a very large proportion of the whole was contributed in the final hour, the list then being most active and broad. The course of prices was frequently attended by irregularity and indecision, indicating the rather two-sided character of the trading.

Pittsburgh

PITTSBURGH, Oct. 4.—In the market the trading in Westinghouse Air Brake and La Belle Iron Works common was again the most prominent feature, and both of these issues once more made new high records. Air Brake advanced to 156 when the demand for these shares apparently slackened, and it sold later at 155, where it closed. La Belle Iron Works made quite a jump in its price, going from 7 to 7½, which price it maintained.

What the Egg Is Made of.

It has often been claimed that the white of an egg is pure albumen, but that it also contains phosphoric acid and sodium chloride or common salt has been proved. The fatty part of the egg, also phosphoric calcium sulphur in the egg, no doubt, accounts for the dark stains left by eggs on silver.

Straws Show—

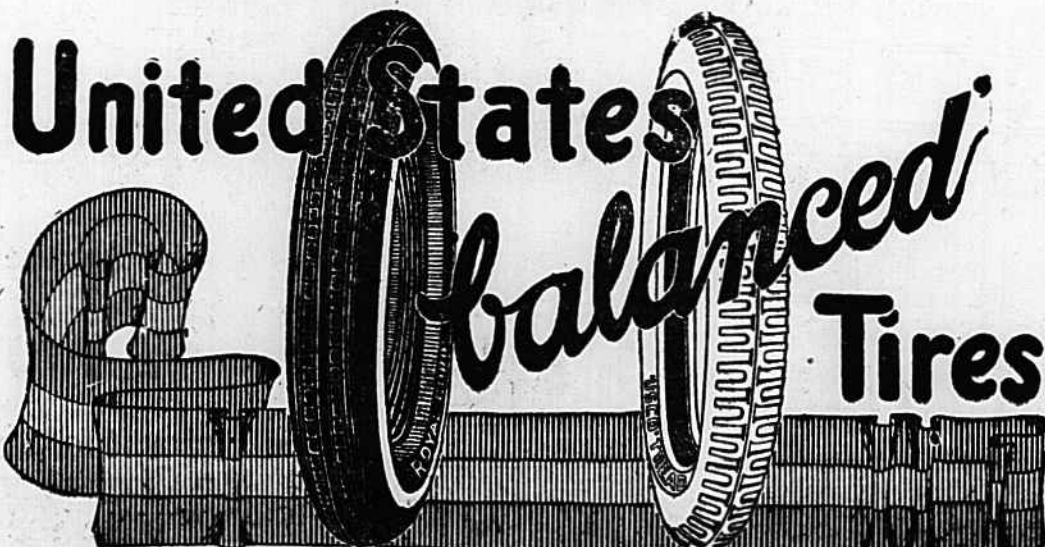

Motorists buy a certain make of tires for the first time because it is sold to them—through advertising, salesmanship, or the good words of satisfied users.

But motorists continue to buy that make of tire only because the first tires have made good—have given satisfactory mileage and service.

Motorists bought United States Tires so consistently that, during the first seven and one-half months of this year, we sold and delivered more tires than during the entire twelve months of last year.

And motorists are continuing to buy United States Tires at the same phenomenal rate.

If straws show which way the wind blows, such phenomenal sales increases certainly show where the best tire service comes from.
